

JLareure Consulting Introduction

We would like to propose our services to your company for Hexagon Intergraph SmartPlant Material, SP3D and AVEVA E3D. With more than 17 years of international experience servicing EPC and owner operator companies.

Our background and expertise consist of plant design software technical knowledge, engineering methodology, piping software handling, site experience and team management.

Our focus is on material management services and the diversity of our experience allows us to adapt to various types of requirements.

Managing director, Jérôme Lareure, Professional Engineer has specialised expertise in piping material, with 7 years of experience as an application engineer on Smart Plant Reference data, SP3D and E3D piping specifications and catalogue, plus 10 years as piping material engineer on projects.

Our consulting company can propose services for the creation and management of:

- Specification, catalogue, MTO and requisition of piping material on SPRD/SPMAT
- Specification and catalogue management of piping material on SP3D/E3D.

Our team would be happy to work with you and stay at your disposition for further information.

Please find below companies we have worked with.

Thank you very much,
Jérôme Lareure
